Bills will be sent during the month of January of each year. Payment must be received within thirty days of the date bills are mailed. - C. **Mooring assignment priorities.** Assignments for the privilege of maintaining a mooring in Stonington Waters and Stonington Harbor shall be made in the order received according to the following ordered priorities:

 - 5) Guest Mooring/Rental Mooring.
- Whenever practicable, request of riparian owners for moorings adjacent to their uplands shall be honored.
- D. **Houseboats and Floating Businesses.** Houseboats and floating businesses are not classified as water-dependent, since it is not their primary purpose to serve as a means of water transportation, recreation or commercial fishing. The Town of Stonington considers that the placement of houseboats and floating businesses in tidal waters as a low priority use of any coastal water body. Houseboats and floating businesses shall be assigned moorings in limited numbers and in specific areas designated by the Harbormaster.
- E. **Assignment of Location.** On approval of an application, the harbormaster shall mark a suitable location for the applicant vessel. The Harbormaster shall assign a mooring registration number for the mooring and advise the applicant of that number. Moorings must be set at the mooring locations designated by the Harbormaster. Initial placement and any relocation of moorings must be approved by the Harbormaster. Any change in the size of boat moored at a location must be approved by the Harbormaster.
- F. **Waiting List Procedure.** The Harbormaster shall establish a waiting list whenever there are more applicants for a mooring assignment than there are

mooring spaces available. The waiting list will be renewed on an annual basis and posted at the Town Office and the Harbormaster's Office. In order to be placed on the waiting list, applicants must: a) provide documentation that they own a boat for which they seek a mooring; and b) not already be assigned a mooring in the area for which they seek a mooring assignment.

G. Minimum Mooring Tackle Specifications. The following shall be the minimum specifications for all moorings located in Stonington Harbor and Stonington Waters. No wooden spars or dolphins may be installed. Use of a mooring by a boat larger than that permitted for the installed mooring equipment may result in loss of the mooring privilege. At no time shall the total scope of moorings be greater than 3-1.

LENGTH BOAT	WEIGHT BOAT	WEIGHT BLOCK	SIZE CHAIN LINKS
22'	1,500	500lbs	1/2" or better
26'	5,000	1,000lbs	1/2" or better
30'	8,000	2,500lbs	1" or better
35'	12,000	3,000lbs	1" or better

Note: The above specifications are subject to variation, as local conditions require.

H. Mooring Tackle Inspection. All moorings shall meet the minimum mooring tackle specifications. The float/pick-up buoy or ball attached to said mooring line shall be of sufficient size and buoyancy to remain afloat when not attached to the vessel. Each float/pick-up buoy or ball shall be marked with the mooring registration number of its assigned mooring permit in permanent legible numbers not less than 3" high. A qualified mooring inspector shall inspect moorings every two years. Mooring owners who choose to inspect his/her own mooring may do so; in such cases, the registered mooring owner must complete and sign the same "mooring inspection form" required of an approved mooring inspector. A "qualified mooring inspector" shall mean a person including a scuba diver, who satisfies the harbormaster that he/she is qualified to inspect mooring tackle as to condition and size. The harbormaster may in his/her discretion cause a mooring to be hauled for inspection at any time at the owner's expense if the mooring has not been inspected as required by this ordinance or the harbor master has reasonable cause to believe the mooring is unsafe.

I. Neglecting to remove, repair or replace moorings. In case of the neglect or refusal of the master or owner of any vessel to remove his/her mooring or to replace it by one of different character when so directed by the harbor master, the harbormaster shall cause the entire mooring to be removed or the buoy removed and the chain dropped to the bottom or shall make such change in the character of

the mooring as required, and collect from the owner of that mooring the sum of \$100 for either of those services rendered and the necessary expenses.

- J. **Rentals.** Mooring assignments may not be rented unless the provision for rental was approved by the Harbormaster in the original mooring application. - M. Mooring locations not used in the proceeding year may be reassigned.

V. Floats, docks, wharves. Permission to build floats, docks, wharves, and other similar structures must be approved by the Harbormaster, Stonington Code Enforcement Officer (and/or the Planning Board) and the US Army Corps of Engineers.

VII. Penalty/Enforcement The provisions of this ordinance shall be enforced by state, county or local law enforcement as well as the Harbormaster of the Town of Stonington. Personnel, services, and equipment of any other federal or state agency may be utilized for enforcement of this ordinance. An officer having vested authority shall, pursuant to authority provided by law and with or without warrant or other process, arrest or summons any person if he/she has reasonable cause to believe such person has committed an act as prohibited by this ordinance.
